

GitHub Repository

2. Going to localhost:5000 (the configured port for the node application), shows this Hello World message

Notes to Self

[Docker tutorial on github](#)

nginx

1. Install instructions for win10 [here](#)
2. nginx [reverse proxy documentation](#)

Deliverables

1. Reproduced the steps [here](#)
2. Need to group up the nginx and node application contents into two separate subdirs
3. More on how to use [Docker compose](#)

Random Reading Points

1. [memcached vs Redis](#) for in memory caching
